

Fill in What you know about the following with a partner or group:

Gastrin:

Secretin:

Cholecystokinin (CCK):

Gastric Inhibitory Peptide (GIP):

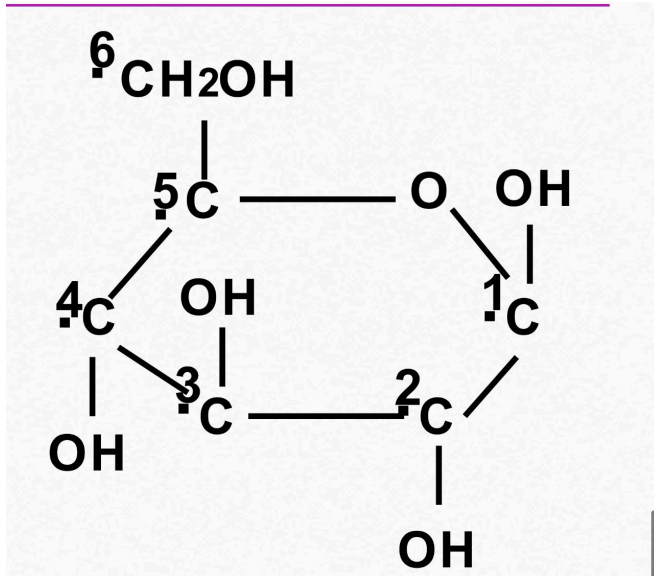

Somatostatin:

Ghrelin:

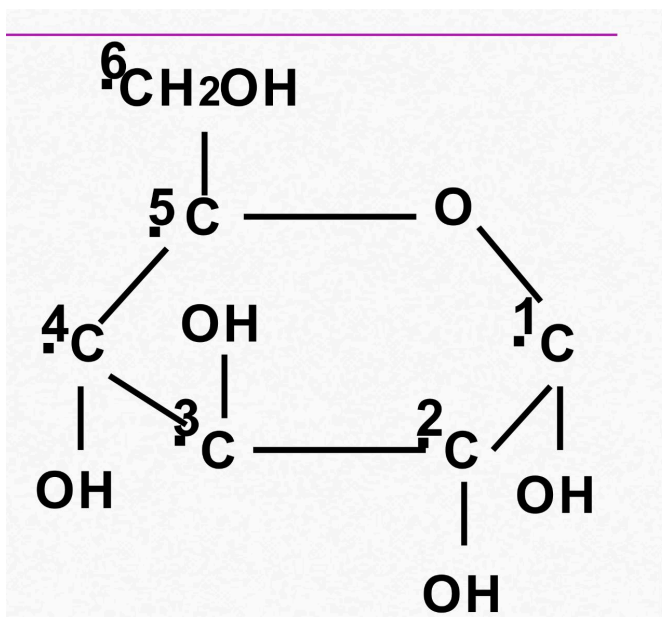

Hypothalamus:

Alpha VS Beta bonds

Beta or Alpha ?

Trick to remember:

Trick to remember:

Digestion Coefficient

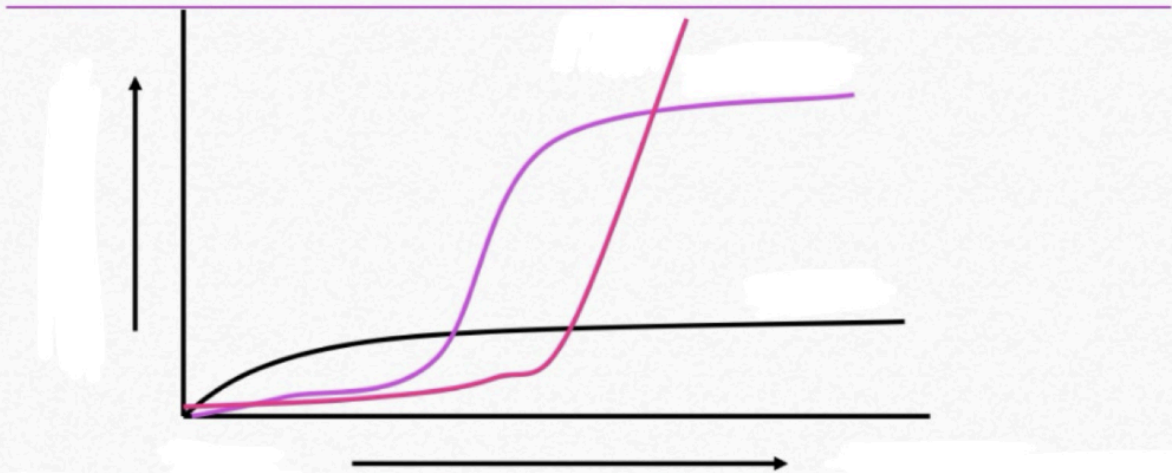

Given the Numbers set it up and solve:

Pig Consumes 400 g feed with 20% crude protein

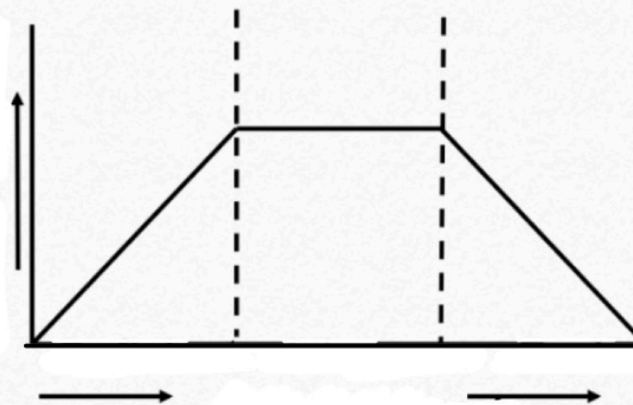

Pig excretes 200g feces with 15% crude protein

CP digestibility:

Growth Curves

Animal Response in Relationship to Intake of an Essential Nutrient

Define heat increment:

How can heat increment be manipulated:

Water is a solvent for:

Heat losses are greater in:

Total proportion of body water is what percent neonates and what percent mature animals

Sweat is:

Net is used to describe energy for:
