## **Label Saturated or Unsaturated, Why?**

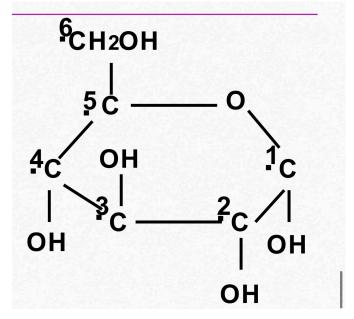

Identify if Saturated or Unsaturated, and what the structure is and what's holding it together.

## Beta or Alpha?

Trick to remember:

## Beta or alpha

**Trick to remember:** 

2 1) 2)	basic functions of water
Metab	olic Water:
	ellular fluids account for: 6 of total body water
	cellular fluids account for: 6 of total body water
Where	e is the other water coming from?
How of body? Newbo	orns:

What else affects water content of the body?

Water is absorbed	from what 4	parts of the	<b>GI</b> tract
-------------------	-------------	--------------	-----------------

In ruminants, net water absorption is from

## **Name water Sources**

5)

- < PPM total dissolved solids (TDS)
- < PPM sulfates
- < PPM nitrates
